

Appendix Table. Sample distribution for PROMIS global physical health and global mental health scores, Population Assessment of Tobacco and Health, adults aged 40 and over (N=7,056)

		Physical health	Mental health
Mean		14.8	14.5
SD		3.1	3.8
Percentile			
	1	7.0	5.0
	5	9.0	8.0
	10	10.0	10.0
	25	13.0	12.0
	50	15.0	15.0
	75	17.0	17.0
	90	18.0	19.0
	95	19.0	19.0
	99	20.0	20.0

Appendix Figure 1. Flow diagram for study sample.

\*The item non-response rate was 4.7%.

Appendix Figure 2. Lowess smoothed plot showing the relation between age started smoking regularly and chronic obstructive pulmonary disease (COPD) prevalence from the Population Assessment of Tobacco and Health Study.<sup>1</sup>
