PTID 2005 Scientific Program

September 30th to October 2nd, 2005

Friday Sept. 30th

Registration Booth opens at 7:30am

Morning Session 9:00-12:00pm Basic Science

Time	Title	Author(s)
9:00-9:05am	Welcome Address	* Athanasios I. Zavras Harvard University, Boston, Ma. USA
9:05-9:30am	Keynote Address Cigarette smoking and innate immunity	* David Scott MODERATOR University of Louisville, KY, USA
9:30-9:45am	Cigarette smoking and endothelial cell injuries	* Xing Li Wang Baylor College of Medicine, USA
9:45-10:00am	Cigarette smoking and endothelial cell injuries	* David Bernhard Medizinische Universitat Innsbruck, Austria
10:00-10:15am	Ethnic differences in nicotine metabolic rate and genes in New Zealand	* Lea A Rod, N Benowitz, M Green, M Lea, A Woodward, J Fowles, G Chambers, D Phillips Institute of Environmental Science & Research, New Zealand
10:15-10:30am	Nicotine and cotinine alter the metabolism of surfactant-producing fetal rat lung type II alveolar cells	* Merluza, J.A., Hillier, C., Thliveris, J.A., Halayko, A., Shaw, A.R., Sowa, M. Scott, D.A. and Scott, J.E. Univ. of Manitoba, Natioanl Research Council, Manitoba Institute of Child Health, Winnipeg, Canada.
10:30-11:00am	COFFEE BREAK	
11:00-11:15am	Mitogen Activated Protein Kinase (MAPK) Signaling by Nicotine in Primary and Pancreatic Tumor cells: Effects on Proliferation and Cell Function.	*Parimal Chowdhury, Kodetthoor B. Udupa & Vladimir P. Zharov. Central Arkansas Veterans Health Care System, Little Rock, Arkansas, USA and University of Arkansas for Medical Sciences, College of Medicine, USA
11:15-11:30am	Identification of molecular alterations in periodontal tissues using infrared micro-spectroscopy	* Kan-Zhi Liu, Man Angela, Singer David L, Sowa Michael G., David A Scott National Research Council Canada, University of Manitoba, Winnipeg, Canada
11:30-11:45am	Expression of the alpha7-nicotinic receptor in surfactant-producing fetal lung type II cells and fibroblasts	* Elliott Scott MODERATOR University of Manitoba, Winnipeg, Canada
11:45-12:00pm	Functional characterization of Syrian hamsters congenic at the NAT2 locus for the N-acetylation of the tobacco carcinogen 4 -aminobiphenyl and the O-acetylation of its N-hydroxy-metabolite	* David W. Hein and Mark A. Doll University of Louisville School of Medicine, Louisville, KY USA
12:00-1:00	LUNCH BREAK	

Friday Sept. 30th

Afternoon Session 1:00-5:00PM Tobacco Cessation / Control

Time	Title	Author(s)
1:00: 1:15pm	Smoking in the elderly: the preventable fraction	* Tai Hing Lam Univ. of Hong Kong
1:15-1:30am	Factors protecting women who quit smoking during pregnancy from smoking relapse after delivery Polish study.	* W. Hanke, K. Polanska, J. Lowe Nofer Institute of Occupational Medicine, Lodz, Poland

2:40-3:00pm	COFFEE BREAK	

Saturday Afternoon Sessions (cont.) 1:00 - 5:00pm Topics of Clinical Importance

3:00 - 4:00pm Tobacco Cessation Workshop for Healthcare Professionals

3:00-3:05pm **WORKSHOP**
Smoking cessation for healthcare professionals

* Catherine Hayes
MODERATOR
Harvard University, USA

In various parts of the world, medical doctors and dentists have incorporated tobacco smoking cessation in the services they offer to smokers.

The purpose of the Workshop is to empower clinicians to use tobacco cessation in their everyday practice.

The sessions will a) present the social framework of a tobacco cessation program and b) address the various steps of a tobacco cessation program in a systematic and practical way.

At the end of the workshop, participants will be able to understand issues of social marketing and message delivery, as well as design and implement a tobacco cessation practice.

3:05-3:20pm Social marketing of smoking cessation

* Nadia Dima
Athina Hygeia Center for Prevention of Addiction, Athens GR

3:20-4:00pm A program for smoking cessation in the Clinic

* Catherine Hayes
Harvard University, USA
